

CHE – Creative Writing

The courses offered through the Certificate are designed to provide a part-time pathway to study creative writing. The courses encourage students to reflect upon their own creative process and acquire transferable creative skills that can be used in a variety of contexts and careers. The programme gives students an awareness of the rules, conventions and possibilities of written and spoken language in a range of forms, genres and media.

The Certificate in Higher Education: Creative Writing is awarded after the completion of 120 credits, of which 30 credits must be taken from the core courses. You can then choose a further 90 credits from a range of optional modules to widen your learning experience. You can take up to 5 years to complete the Certificate.

Core Modules
