Introduction

Feature tile grids can be used to display several items in yellow and grey boxes.

There are three different types of tiles that can be displayed in the grid:

- **Feature Tile** - Heading with optional further details, linking to a section in the CMS.
- **Feature Tile (external link)** - Heading with optional further details, linking to an external page.
- **Feature Tile (quote)** - Quote, Source and Year, mainly used for quotes from alumni donors

You can combine Feature Tile and Feature Tile (external link) items, but don't attempt to combine Feature Tile (quote) items with any other sort of tile.

The feature tiles rearrange themselves for mobile screen resolutions or if a user has their browser in a smaller window.

Feature tile grids **can only be created by Moderators** because a new section must be created, but if you already have one in your site, it can be edited by both Contributors and Moderators.

Example Feature Tile Grids

Creating a Feature Tile Grid

Add content where you want the feature tile grid to appear

1. Open the section in the CMS where you want the feature tile grid to appear.
2. Click on the Content tab.
3. Click Create content and choose 'Display Feature Tiles'.

Note: If you don't see this content template in the list, you'll need to contact the Web Team to ask them to enable the necessary templates for feature tile grids.

4. The 'Display Feature Tiles' template is displayed:

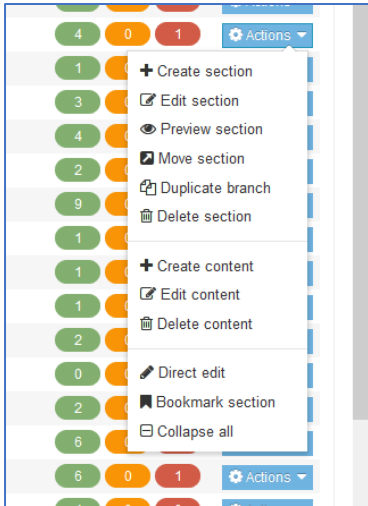

The screenshot shows a CMS interface with a 'Content' tab selected. The content type is 'Display Feature Tiles'. The form includes a 'Name *' text input field, a 'Using Quotes?' checkbox with 'Yes' selected, and an 'Extra Text?' checkbox with 'Yes' selected.

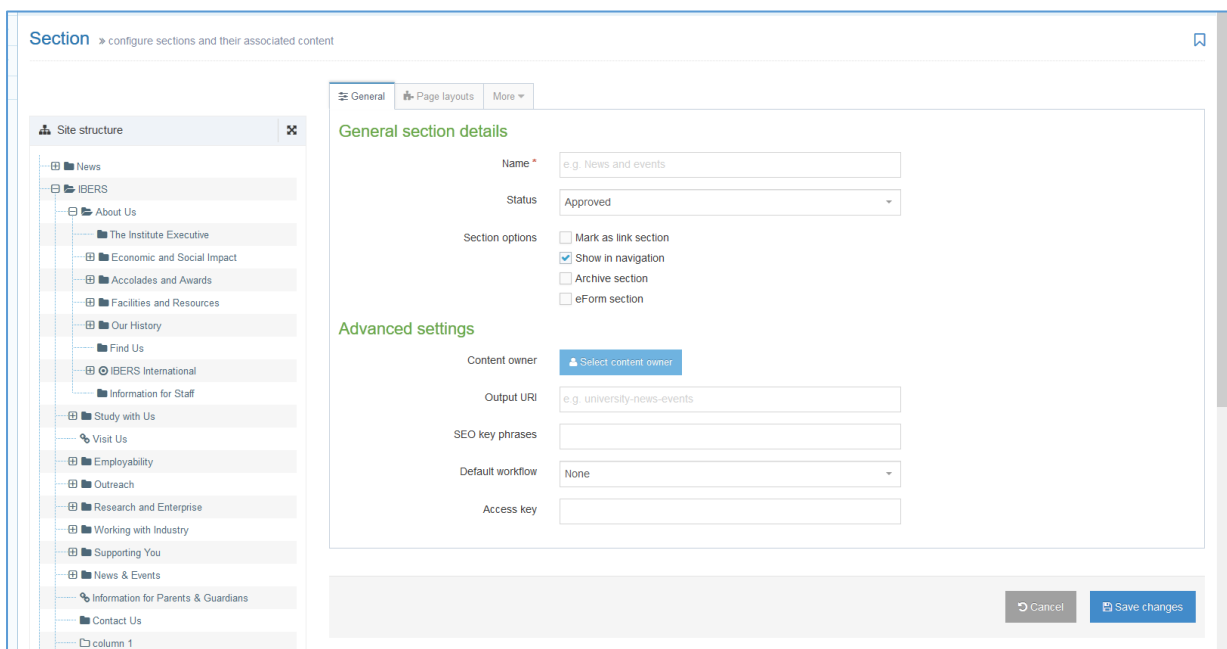

5. Give the piece of content a name.
6. Click Save changes to save the content.
7. If required, you may need to order the content in your section so that your feature tile grid appears in the correct point in the page. [See Information Sheet 8 for further information on reordering content.](#)

Create a new section to store the tiles

1. Return to the Site Structure and find the section where you want the feature tile grid to appear.
2. Click on the Actions button to the right of the section you have chosen, and the Actions menu will appear. Choose 'Create Section'.

3. The *General Section Details* page will appear:

Section > configure sections and their associated content

4. Type **features** as the name of the section. It is important to use the correct wording, or the image menu will not work.

5. Un-tick the “Show in navigation” tick box so that this section will not show up in the left menu.
6. Click Save changes at the bottom of the screen.
7. You will be returned to the Site Structure.

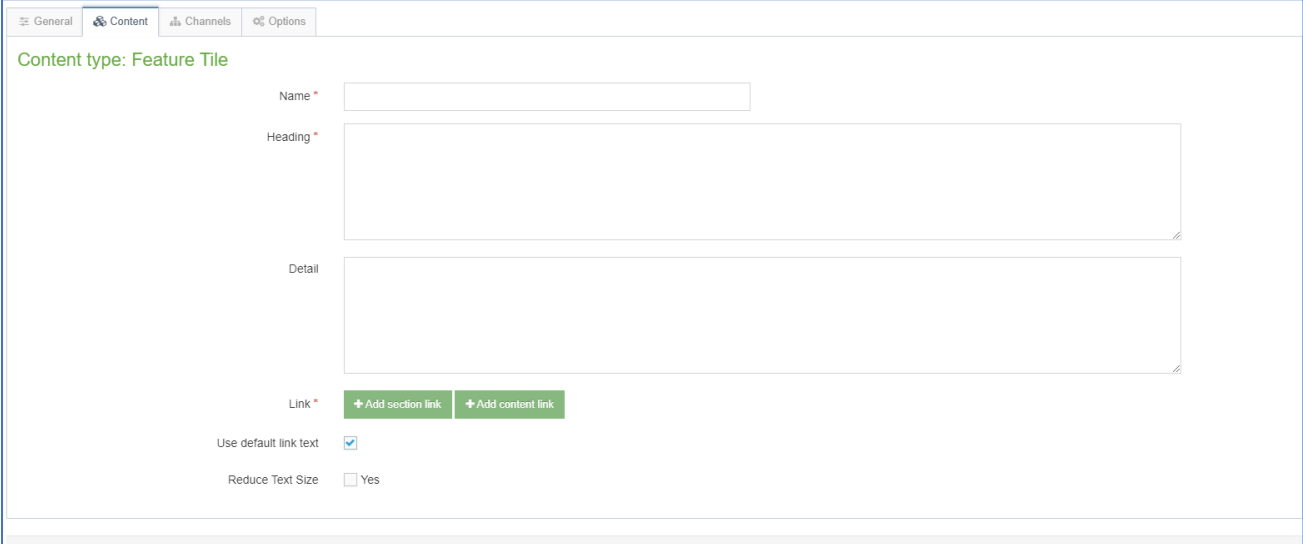

Add the tiles

1. Click on the plus sign to expand your section so you can see your new features section.
2. Click on the features section.
3. Click on the Content tab.
4. Click Create content and choose 'Feature Tile', 'Feature Tile (external link)' or 'Feature Tile (quote)', depending on what type of tile you are adding.

Note: If you don't see these content templates in the list, you'll need to contact the Web Team to ask them to enable the necessary templates for feature tile grids.

5. The chosen template will be displayed.
